

Lab: Generative AI for Storytelling

Estimated time needed: 30 minutes

Learning objectives

After completing this lab, you will be able to:

- Sign up in Zoho Analytics and upload a dataset
- Generate a report by prompting Zia AI

Welcome to the lab on **Generative AI for Storytelling**!

Overview

In this lab, you will learn how to use Generative AI to prepare a report for your data using charts and insights.

To begin, you need to create your login on the [Zoho Analytics website](#) page.

Task 1: Sign up in Zoho Analytics

Step 1: Click www.zoho.com/analytics/

Step 2: Fill in the required information and click the SIGN UP FOR FREE button.

Note: You can sign up for Zoho Analytics using various options such as Google, LinkedIn, or a Zoho email account. The platform offers a 15-day free trial without requiring any credit card details.

Step 1 of 2: Import Your Data

Import data from Excel, CSV, HTML, XML, JSON, Statistical & MS Access files

Workspace Name*[?]

Workspace - 1

Description

File Type

CSV,TSV & Other Text Format

Data Location

☒ Local Drive ☐ Pasted Data ☐ FTP

File*

Choose File No file Selected

(Supported file formats: .CSV, .TSV and other text files)

Note:

- For other file formats, Choose the corresponding 'File Type' option above.
- For large size CSV or TSV or Text file, we recommend to zip it and upload.
- Zipped CSV, TSV or Text file should contain only one file in it.

Try Sample

General Info:

Data size should be less than **100 MB** and the number of rows should be less than **1 Million**

To Upload more, use our [Databridge](#), provided your data is in CSV or TSV text file formats

Contact support@zohoanalytics.com for any assistance

Viewer

Step 2: Enter the following prompts one by one in the Zia AI prompt bar and generate all the charts through Zia.

Prompt 1:

Show a line chart of total revenue grouped by month using the Order Date column.

Sample output

You can click **Zia insights** icon on the top-right corner to see the detailed insights of the generated chart as shown below.

Sample output

Prompt 2:

Create a bar chart of the top 10 products by total revenue.

Sample output

Prompt 3:

Create a pie chart showing each product's contribution to total revenue.

Sample output

Prompt 4:

Create a pivot table with product name, total quantity ordered, and total revenue.

Sample output

Step 3: After generating all charts go to **Dashboard** and select **Create new Dashboard**

Step 4: Drag and drop the dataset in the report section.

The screenshot displays a dashboard creation tool interface. At the top, a dark header bar contains navigation links: Home, Workspace - 1, Ask Zia, and a tab for New Dashboard. On the right of the header, it indicates a Premium Trial with 9 days left and an Upgrade button. A left sidebar lists various components: Explorer, Elements, Dashboards, Widget, Reports, Data, Ask Zia, More, Viewer, and Grid. The main workspace is titled 'Drag and Drop the Reports:' and includes a search bar. Under the 'Tables & Reports' section, the 'electronics_dataset' is highlighted with a red rectangle. The central area is a large light gray space with the text 'Drag and drop reports here' and a dashed red box containing icons for a table, bar chart, funnel, and line chart. At the bottom of this area, there are links for 'Video Demo' and 'How to create dashboard?', and a button labeled 'Copy From Existing Dashboard'. On the right side of the workspace, there are checkboxes for 'Auto Add User Filters' (checked) and 'Make User Filters Global' (unchecked).

Step 5: Click **Save**, enter the dashboard name, and click **Ok** to save the dashboard.

The screenshot shows a dashboard builder interface with a 'Save As' dialog box open. The dialog box has the following fields:

- Name: Generative AI Report
- Save in Folder: Tables & Reports
- Tag: Add a tag
- Description: (empty text area)

The 'OK' button is highlighted. In the background, a table titled 'electronics_dataset' is visible with the following data:

#	Order ID	T	Product	#	Quantity
1	3		Monitor		
2	7		Tablet		
3	11		Headphones		
4	15		Desk		
5	19		Monitor		
6	23		Tablet		
7	27		Headphones		

Task 4: Finalizing the charts to be used in the report

Step 1: Go back to Zia, save, and add the charts to the dashboard one by one that you created earlier.

Repeat the same step to add the other charts to the dashboard.

Step 2: Once the charts are added, go to the dashboard to find the charts that you have added.

Task 5: Saving and sharing the report

Step 1: Go to the View Mode.

Step 2: To export the dashboard, click **Export** and select the appropriate option to download the dashboard.

Generative AI Report

Total Quantity Ordered grouped by Product

	Product	Total Quantity Ordered
1	Chair	47
2	Desk	62
